

E12

12,000 lb. capacity

Overhead shut off system

- 1 Enable Heavy-Duty symmetric lifting, up to 3,000 lb. per arm
- 2 Provide added security against door damage
- 3 Allows technician to disengage both columns simultaneously
- 4 Prevents vehicle damage from being raised too high
- 5 Provides long lasting durable finish
- 6 Minimize the need for truck adapters by meeting a wider range of OEM recommended pick up points
- 7 Accommodates higher profile vehicles and provides maximum headroom to work underneath vehicles

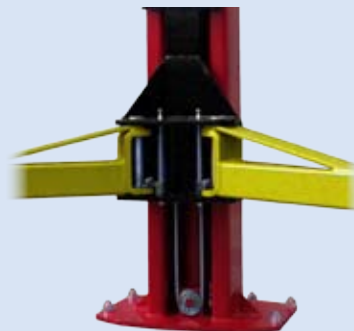

The Automotive Lift Institute (ALI) certifies that the E12 described herein complies with the applicable provisions of the American National Standards ANSI/ALI ALCTV 2006 and are Third Party Validated by the ETL Testing Laboratory.

Adjustable Column Height

The columns of the E12 two post truck lift can be set at 13' 10" or 14' 1/2" to accommodate higher profile vehicles, providing ample headroom for technicians in their day to day servicing.

Anodized Arm Restraints

The E12 plated arm restraints inhibit rust and automatically disengage when lift is fully lowered.
